$4 Million Ok'd To Widen Cal-Sag Channel

A four million dollar appropriation has been approved by the House of Representatives in Washington to start construction on the widening of the Calumet Sag channel this summer.

The appropriation is expected to be approved in the Senate.

These funds will be used, according to Col. Philip K. Kromer Jr., district engineer of the Army Corps for the first three miles of the 16.2 mile canal between the Little Calumet river and the Chicago Sanitary and Ship canal. The four million dollar appropriation is only a small portion of the $126,324,000 needed for the entire project.

When the Cal-Sag project is completed with monies appropriated in future years the channel will become an important link in the all water route connecting the Great Lakes with the Gulf of Mexico.

School Board Sets Policy For Use Of Buildings

The Board of Education of School District No. 158 this week announces its policy of the use of the different school district buildings by groups, organizations and clubs.

In setting up the policy for use of the school buildings the board has set a fee to cover the expense of custodial service and kitchen use.

The board limits the use of buildings to only approved organizations in school district 158—such organizations that have a majority of their members residing within the boundaries of the district.

Applications for the use of the different buildings are to be submitted for approval at least one week in advance of date requested to the Board of Education Office, Memorial Jr. High school, 2721 Ridge Road.

Service clubs and churches will make application and pay at regular intervals. Regular P-T.A. meetings and school activities are exempt from fees.

Minimum custodial fees for three hours or less on week-day evenings shall be $5.00. An additional $2.00 fee will be charged for each hour the building is kept open after the three hours.

Minimum custodial fees for Sundays and holidays will be $7.50 for three hours or less of continuous service. An additional $3.00 fee will be charged for each hour the building is kept open after the three hour limit.

Separate meetings during the same Sunday, such as morning and evening church services will each have a minimum charge of $7.50 for custodial fees.

There will be a $2.50 charge for use of the Memorial Jr. High School kitchen facilities for groups of 50 or less and $5.00 for groups of more than 50.

School buildings are not available for private use.

No political meetings will be permitted on school property and no classrooms are to be used without the written consent of the board.

Free Chest X-ray Today Thru Friday

Free chest X-rays will be given to Lansing residents today and Friday (June 30 and July 1) at the mobile unit parked in the community to search for 'unknown' cases of tuberculosis.

Today the unit is located at the Botma Super Mart, 18036 Torrence Road, and will be open from 10:30 a.m. to 5:30 p.m. On Friday the unit moves to Wilson Jeweler, 3318 Ridge Road, where X-raying hours are 2 to 9 p.m.

Everyone 15 years old and over is eligible to stop by the unit for a free X-ray during the two-day stand.

Chairman of the survey in Lansing is Mrs. Lloyd Wintersteen of 17547 Roy Street. The X-ray program is conducted by the Tuberculosis Institute (the Christmas Seal organization) and the Suburban Cook County Tuberculosis Sanitarium District.

Latest techniques make it possible to take the X-ray in less than a minute, with no undressing necessary. Volunteers from the community will register applicants at the unit, after which a technician will take the 'picture.'

Results are mailed to the home within two weeks. If suspicious signs of TB are shown, a confidential letter is sent asking the participant to report for a larger X-ray, also free. If other chest conditions are suspected, he is advised to contact his private physicians for further examination.

During last year's survey less than 18 per cent of the adult population of Lansing visited the unit for X-rays. The evential eradication of TB depends upon the participation of everyone. A highly communicable disease, tuberculosis has no apparent symptoms in the early stages and the victim may infect his family and friends without knowing he has the disease. An annual chest X-ray is the best way of finding TB early when treatment and recovery are easier.

Open Bids Tomorrow On Project

Construction of huge port facilities will start August 1 at the South end of Lake Calumet, it was revealed last week by Maxim M. Cohen, general manager of the Chicago Regional Port District.

Bids for nine construction contracts will be open tomorrow, Friday and will be awarded July 15. The Port District is asking bids on the construction of the first stage of the gigantic harbor facilities which will cost an estimated 22½ million dollars.

The project is to be financed through revenue bonds.

Construction will include three transit sheds, a back-up warehouse, port office and service building, elevated tank, two 6½ million bushel grain elevators and necessary railroad spurs.

All facilities of the port will be rented and in this way pay off the revenue bonds.

The South End Chamber of Commerce and the Greater Roseland area are planning a huge community celebration August 21-27 to mark the beginning of the construction of the long awaited harbor.

At Lake Calumet Harbor, when completed, ocean and lake ships and canal barges will interchange cargoes or will transfer cargo to other forms of transportation.

Some experts express the opinion with the development of the Lakes Calumet Harbor and subsequent industrial growth an additional 300,000 jobs will be created in the Chicago area resulting in an increase of over a million in population.

Highland Junior Woman's Club Board Meets

The Highland Junior Woman's club's executive board and committee chairmen met at the home of Mrs. George Brooks, president, June 22.

Plans outlined for the coming year include a bake sale in the fall, card party next winter and the annual spring dance.

After the business meeting was adjourned, a farewell party was celebrated for Mrs. George McCauslan, 8516 Delaware, a member of the group who with her family will move to New Jersey next week.
